

Jan Van Rensbergen

INVENTOR · THEORETICAL PHYSICIST

About me

Visionary inventor and theoretical physicist, renowned for pioneering work in time travel, flux capacitor technology, and unconventional scientific research. Adept at creative problem-solving, interdisciplinary collaboration, and pushing the boundaries of known science.

Interests

- Temporal Mechanics
- Quantum Physics
- Invention & Engineering
- DeLorean Restoration
- Science Education

📍 Bergstraat 39, BE-3200 Aarschot

Personal

Nationality: American
Date of birth: 22.03.1920

EDUCATION

1951 PhD in Physics

CALIFORNIA INSTITUTE OF TECHNOLOGY

📍 PASADENA, CA, USA

Dissertation: *"Theoretical Approaches to Temporal Displacement and Causality"*.

1943 BSc in Engineering

MIT

📍 CAMBRIDGE, MA, USA

Thesis: *"Practical Applications of High-Voltage Circuits in Experimental Physics"*.

PROFESSIONAL EXPERIENCE

1955 – now Independent Inventor & Research Scientist

HILL VALLEY LABORATORY

📍 HILL VALLEY, CA, USA

- Invented the Flux Capacitor, enabling practical time travel.
- Designed and constructed the DeLorean Time Machine and related temporal devices.
- Conducted groundbreaking experiments in temporal mechanics and quantum theory.
- Provided scientific mentorship to aspiring inventors and students.
- Published theoretical work on paradoxes, causality, and energy transfer.

1960 – now Science Educator & Public Speaker

VARIOUS INSTITUTIONS

📍 USA & EUROPE

- Delivered lectures and demonstrations on physics, engineering, and the ethics of scientific discovery.
- Organized science fairs and educational outreach for young students.

ACADEMIC EXPERIENCE

1985 Visiting Professor: Temporal Physics

HILL VALLEY UNIVERSITY

📍 HILL VALLEY, CA, USA

- Developed and taught courses on time travel theory and paradox management.
- Supervised student projects on experimental physics and invention.

1978 – 1984 Adjunct Lecturer: Quantum Theory and Paradoxes

CALIFORNIA INSTITUTE OF TECHNOLOGY

📍 PASADENA, CA, USA

- Lectured on advanced quantum mechanics and paradoxes in theoretical physics.
- Organized interdisciplinary seminars on causality and time.

1952 – 1955 Research Fellow: High-Energy Particle Physics

MIT

📍 CAMBRIDGE, MA, USA

- Conducted research on high-voltage circuits and early particle acceleration experiments.

GRANTS AND AWARDS

1990 Lifetime Achievement in Innovation

INTERNATIONAL SOCIETY OF INVENTORS

📍 GENEVA, SWITZERLAND

Recognized for a lifetime of inventive contributions to science and engineering.

1986 Best Experimental Demonstration

WORLD SCIENCE CONGRESS

📍 LONDON, UK

Awarded for the live demonstration of the DeLorean Time Machine prototype.

1985 Hill Valley Science Achievement Award

HILL VALLEY SCIENCE SOCIETY

📍 HILL VALLEY, CA, USA

Awarded for outstanding contributions to science and innovation in the community.

TALKS

- 1991

From DeLorean to Locomotive: Engineering Time Machines

SOCIETY OF INVENTORS ANNUAL MEETING

Panelist on the evolution of time travel technology.

SAN FRANCISCO, CA, USA
- 1986

Paradoxes and Causality: Lessons from Time Travel

WORLD SCIENCE CONGRESS

Invited talk on managing paradoxes and causality in theoretical physics.

LONDON, UK
- 1985

The Flux Capacitor: A New Era in Temporal Mechanics

INTERNATIONAL PHYSICS SYMPOSIUM

Keynote on the invention and implications of the flux capacitor.

GENEVA, SWITZERLAND
